DWA_04.3 Knowledge Check_DWA4

_____

1. Select three rules from the Airbnb Style Guide that you find **useful** and explain why.
   - References: This rule encourages the use of const instead of var and this will ensure that I do not reassign references which will lead to bugs otherwise to reassign it is best to use let.
   - In Objects, to use computed property names when creating objects with dynamic property names because it allows you to group properties of an object in one place.
   - To use both shorthand.eslint on object method and property value because they become shorter and descriptive.

_____

2. Select three rules from the Airbnb Style Guide that you find **confusing** and explain why.
   - In Objects, Quoting properties which are invalid identifiers
   - Not calling methods directly, it is confusing because when calling the method directly seems easier than having to call them indirectly.
   - Spreading objects rather than object assigning because it gets complex to navigate through the properties of an object.
